

Transportation Solutions

Unbiased Solutions Backed by Technical Expertise

Connectors | Wire & Cable | Sleeving & More

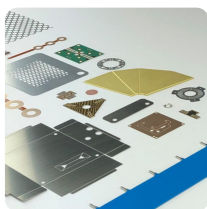

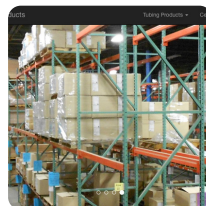

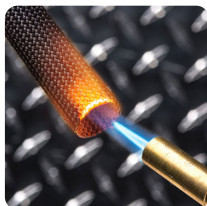

Breaking the Constraints

If you are having a hard time finding product or making deadlines

Our factory partners specialize in the solution.

Sourcing | Engineering | Cost Savings | Ruggedization | Inventory | Same Day Shipping | Traceability

- Products Rated to: -70°C to $+225^{\circ}\text{C}$
- Custom CNC Parts
- Just in Time Delivery
- Engineered Weight Savings
- Kitting & VMI Options
- Hybrids | Fuel Cells | EV
- Sheet Metal Fabrication
- Fluid Blocking Engine Wire
- Silicone Gasketing & Sealing
- Plating
- Kynar | Halar | Peek
- IATF
- Buss Bars & More

Power Cables
Ethernet Cables
Etched Parts
Surface Coatings
Custom Machined Parts
Micro & Nano Connectors
Sleeving
Sheathing
Shielding
Tape
Tubing
Sheet Metal
Labeling & Identification
Laser | Dot Peen
Traceability
Wire Harness
Cable Assemblies
CAN-Bus

We are available to meet with you and review your next project.

Having trusted technical advisors on your team changes EVERYthing

Transportation Highlights

Champlain Cable

EXRAD Battery Cables have been approved at "Big 3" North American Automotive OEM's

EXRAD® HVFX offered the best balance of thermal and mechanical robustness, flexibility and fluid resistance, plus it met the ISO-6722-1 global automotive standard used by most automotive OEM's

EXRAD® 150 HVFX irradiation crosslinked power cable outperformed the equivalent 125°C and also provided a significant cost and weight savings.

EXRAD® HVFX showcases the best blend of cable size, weight, performance and price for the application.

E-Fab

Superior Materials for Critical Automotive Components

Aluminum
MuMetal
Brass
Copper

High-Frequency Laminates
Iconel
Molybdenum
Nickel Alloys
Nitinol
Stainless Steel
Titanium
Tungsten

For a reliable turnaround of automotive parts, turn to the photochemical machining experts at E-Fab. With unmatched capabilities and a quality-first mindset, we deliver compliant components on time, every time.

YC Cable

Over 30 Years Experience Providing Cable Assemblies and Wire Harness Assemblies.

YC Cable facilities are located in Silicon Valley, California, and Piscataway, New Jersey in the USA offering high mix & small order services. They manufacture to IPC 620 and Telcordia GR-326 specifications, in addition to being ISO 9001:2015 in the USA. All of our products are manufactured and tested in compliance with the following standards; UL/CSA, Telcordia, IEC/ANSI, TIA/EIA, and IPC. Our engineers offer cutting-edge technical support services to assist our customers with custom product consultation, design, cost reduction analysis and many other services.

TechFlex

Since 1965, Techflex has been engineering and manufacturing a wide range of braided sleeving products.

Nomex
Resists UV, Gasoline, Engine Chemicals & Salt Water
Up to 1400°F
ASTM D3032-22
EV Power Cable Identification
Fuel & Hydraulic Protection
Hologen Free
Noise & Rattle Suppression
EMI Shielding
ASTM-B 33
Diesel & Lubricant Resistant
Overbraiding
Customizable Configurations
Custom Die Cutting
Header Wrap

Applications

Battery Cables
Video Cables
Transmission Cables
Power Train
Back Up Cameras
Engine Cables
Sensors
High Voltage Cables
Automotive Ethernet

Doors | Hatches
